Our Education Philosophy

We have an unrelenting focus on the skills and knowledge our students really need from education to live and thrive in a complex and ambiguous world. Regardless of the CGS school, students benefit from our well-honed philosophy, which centres around investment in five key areas: students, teachers, curriculum (what to teach), pedagogy (how to teach), and boarding.

Investment in Students

Empowering students to become leaders of their own learning

Investment in Teachers

Professional development for teachers at every stage of their career

Investment in Curriculum

Creating a curriculum to help learners be the best that they can be

Investment in Pedagogy

Tailoring pedagogies to meet our students' individual needs

Investment in Boarding

Creating a home away from home for boarders
